

04/04 Agenda

Week 8 meeting with the TA

Location: DW PC Hall 1 cubicle 7

Date: 04/04/2023

Start time: 14:45

End time: 15:10

Attendees: OOPP Team 33 + Mirella Gunther

14:00 - 14:10

Check up on everyone and present agenda

Approval of agenda

14:10 - 14:20

Check up on what everyone has done for the past days, see what else needs to be implemented, so we have a clear idea of what will be discussed at the TA meeting

14:20 - 14:40

Formulate any additional questions that might have come up for the TA and decide on what we will talk about with the TA

14:40-14:45 Break

14:45 - 14:55

Beginning of the official meeting, bring the TA up to speed with what has been discussed

14:55 - 15:05

Git inspector

Questions for the TA:

- Self Reflection Assignment general feedback
- Product Pitch Assignment feedback
- HUE feedback
- Tech support about connecting the server
- (if it doesn't get posted by then) Sebastian talked about making a shared cheat sheet?
- What to expect from the exam questions, there appears to be a lot of talk about lecture material. How long is a time slot for a team during the oral exams?
- Will we receive feedback on individual process and product grades before the exam?
- Do we test the client side? The template doesn't have a test directory and we can't use Mockito (just unit tests? Or no tests at all?) Repository tests should return null?

15:05-15:10

Any final feedback from the meeting

Closing

15:10 - 15:15 Break**15:15 - 17:45**

Use the rest of the Shared Labs to work on any course related content

Implement feedback

Tech support

Talk what is left to do and what is achievable until the Code deadline (FRIDAY APRIL 7th)
